Summary Reports in Review at the Water Court

- a. 41B: The DNRC issued a Summary Report on this basin. The court completed review of the report. Claimants and Counsel within the basin requested the Water Court delay issuance of the decree until DNRC was ready to issue 41A. The court has delayed issuance. As of the date of this report, claimants and Counsel within the basin continue to ask for delays in issuing both basins 41A and 41B.
- b. 40F: The DNRC issued a Summary Report on this basin on 4/15/2011. The court is continuing to review the Summary Report and is actively working with DNRC to get the decree ready for issuance.

Elapsed Time: Objection to Master's Report until Claim Closed The data in the tables below show all claims closed during the specified period where an Objection to Master's Report was received at the court. Historically, the Water Court did not digitally record the data necessary to calculate elapsed time on this measure in a centralized location. Over the course of the last year, this data element has been added to our tracking system. Starting in the 4th quarter of 2011, the necessary data was available to run the calculations.
